

Download Microsoft Stream Video and Save to a Flash Drive

These directions explain how to download a video from Microsoft Stream and save it to a Flash Drive to be used with the SimplicityTouch interactive flat panel.

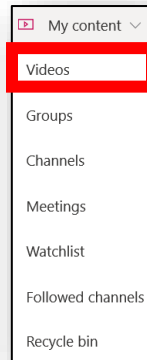

1. Access **Stream** via Microsoft Office 365.

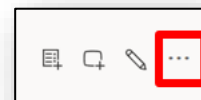

2. Choose **My Content**.

3. Choose **Videos**.

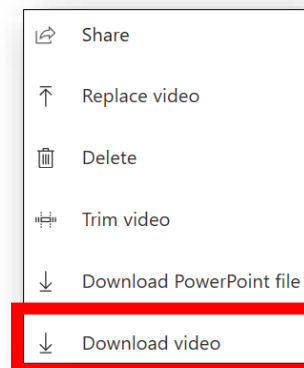

4. Click the **ellipsis** to the right of the video you want to download.

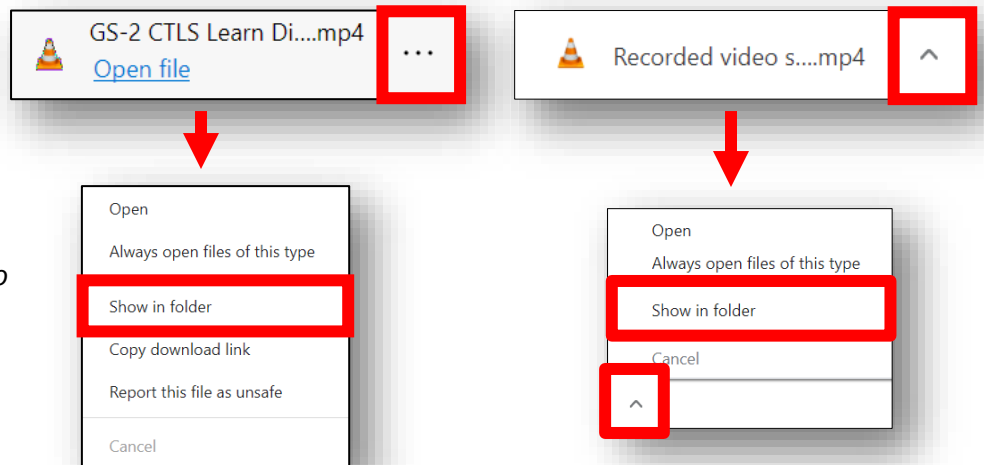

5. Select **Download video**.

Note: The video will download as an mp4 in a popup at the bottom of the page.

6. Click on the **ellipsis** or **caret**.

7. Select **Show in Folder**.
Note: This will allow the user to move the video into the appropriate folder using drag and drop.

8. If you have a flash drive in the computer, drag and drop the file to the flash drive.

Note: For more information on how to use the video on the flash drive with a substitute and the interactive panel, click [here](#).
