

Connecting to the SimplicityTouch Interactive Flat Panel

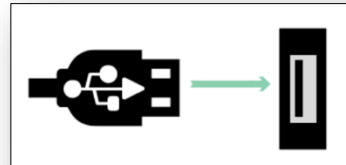

These directions will explain how to connect a teacher laptop to the SimplicityTouch Interactive Flat Panel.

1. There are two cables that should be used to connect your laptop/docking station to the SimplicityTouch IFP. One is an **HDMI cable**, and the other is a **USB cable**.

HDMI Cable

USB Cable

2. After connecting your laptop, **power on** the SimplicityTouch IFP.

3. Press the **Input Select Button** and ensure that **HDMI 1** is selected.
