

CCSD Wireless Directions: iOS 12.0 or Earlier Certificate Download

The following directions will show how to download the CCSD-issued SSL certificate from home. This process will make connecting your device at school quicker and easier. When the certificate is already installed, you will only need to connect to the wireless and log in when you get to school. This certificate is required for an error-free internet connection.

1. Open a web browser and navigate to <http://bit.ly/certothe> or use the QR

2. When the popup window opens, select **Allow**.

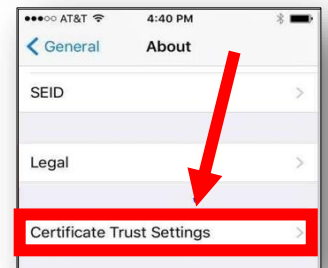

3. In the next pop-up window, select **Close**.

4. For iOS version 10.2 and newer, you will need to update the Certificate Trust Settings. From your device's Home screen, select the **Settings** icon.

5. Select **General**.

6. Select **About**.

7. Scroll down to Certificate Trust Settings and turn on the **CCSD FortiGate Root Authority**.

8. You will get a Root Certificate Prompt. Select **Continue**.
