Windows 10 and SMART Learning Suite

Enhance productivity & student engagement with Win10/SMART. InTech is here to help you get started! Use the **Win10 Reimage Checklist** to quickly back up your computer before reimaging. View our Win10/SMART resources below. **Learn more...**

For additional Windows 10 resources click here.

For additional SMART resources click here.

OneNote Class Notebook Enhancements

Class Notebook just got even better! You can add a Teacher Only section, assign students to specific groups in the collaboration space, and create view-only links for parents and guardians. **Learn More...**

Engage Students with Gaming

SMART Learning Suite holds all the easy to create and customize gaming templates/themes for your classroom gaming experience. SMART's collaboration and assessment tools are student favorites, too! **Learn More...**

Microsoft Forms + OneNote

Did you know that you can now **embed Microsoft Forms** into **OneNote Online**? Students can complete a quiz or form within their notebook without having to use a different application or a browser. **Learn more...**

### Good Digital Citizens Cite their Sources

Cobb Digital Library contains many useful databases for research. Many of them have easy citation generators for their articles. When teaching research skills, it is critical to teach students how to cite sources. **Learn more...**

Spotlight: Share, Collect & Review Resources

Edmodo Spotlight is a stockpile of teacher-created resources that can be filtered by all Grades/Subjects and more than 15 Languages! **Learn more...**

CTLS Assess Data Wrap-Up

CTLS Student Progress Monitoring has been compiling data all year. Now is a great time to filter data by standards and review all tests given this year or previous years. Learn how to easily access end of year data. **Learn More...**

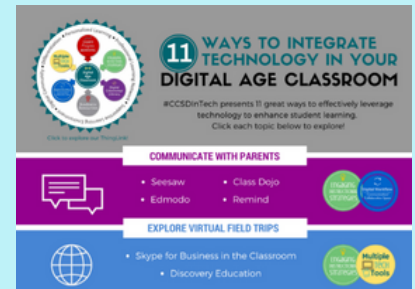

Are you using ONENOTE'S CLASS NOTEBOOK in your classroom?
