Sharing a Class Notebook
the
Right Way

Sharing a Class Notebook...the Right Way!

Class Notebook sharing functions differently than most Office 365 applications. Class Notebooks need to be shared via the add teacher or add student features in order for everyone to see the correct content. **Click to learn more...**

Make Academic Resources SMART!

Did you know that you can add Academic Resources from YouTube videos directly into your SMART Notebook? Embed instructional videos to enhance the learning experience for students. **Click to learn more...**
