63	In addition to the parts list above, vendor agrees to the cost plus price structure listed below for related items. The awarded vendor must adhere to the cost structure proposed/awarded throughout the life of the contract.		9053 Profile - This profile is designed to accommodate competitive pricing in facilities with medium to large Fleet. The profile takes advantage of factory rebates associated with Fleet repairs (i. e. preventative maintenance, heavy duty repairs, and fast moving lines). Any changes to Non-NAPA Product Costs adjustments will be mutually agreed upon and no changes will occur without discussion with CCSD Management. The Sliding Scale below is an example of mark-ups to Non-NAPA purchases. All Non-NAPA purchases are marked-up from cost regardless of price changes associated with outside procurement. All records of cost will be available to CCSD.		
Sliding Scale Gross Profit Percent on non-NAPA Branded Parts					
\$0 - \$200			20% Gross Profit		
\$200 - \$350			11% Gross Profit		
\$350 - Above			10% Gross Profit
