

Connecting Personal Devices to the CCSD Guest Wireless Network (Android – Galaxy Tab)

The following are directions for connecting your PERSONAL Android device to the CCSD Guest Wireless Network. Due to the many different manufacturers and versions of Android OS, this document will only cover the main concepts necessary for connecting an Android device. Screenshots or steps may differ on your specific device.

1. From your device's Home screen, select the **Settings** icon.

2. Ensure that Wi-Fi is turned **ON**.

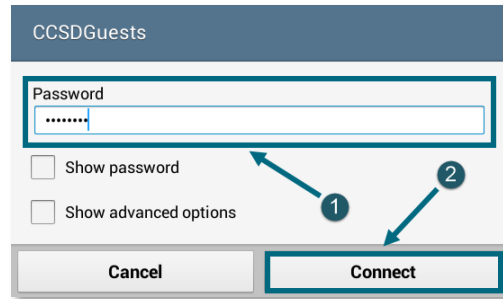

3. Select the **CCSDGuests** network.

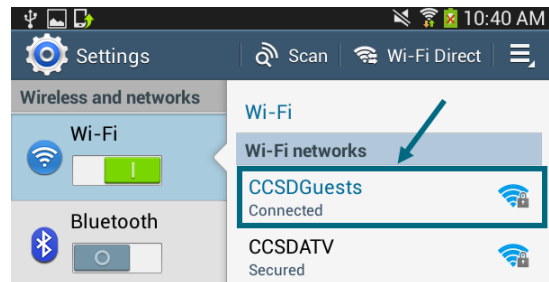

- You will need to enter the password provided by your local school's Library Media Specialist, Lab Manager, or School Administrator.

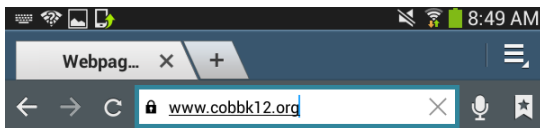

Once entered, press **Connect**.

- Wait for "Connected" to appear below CCSDGuests.

- Return to the device Home screen by clicking the **Home** button.
- Open a web browser (i.e. Firefox, Chrome) and navigate to www.cobbk12.org.

8. If you have NOT registered for a Guest Account DURING THE CURRENT SCHOOL YEAR, select **New Guest**. If you received your Guest credentials during a previous visit, select **Returning Guest** and continue at Step 12.

Note: Guest Accounts MUST be renewed every year beginning July 1st.

ONBOARDING FOR PERSONAL DEVICES

Welcome to the Network

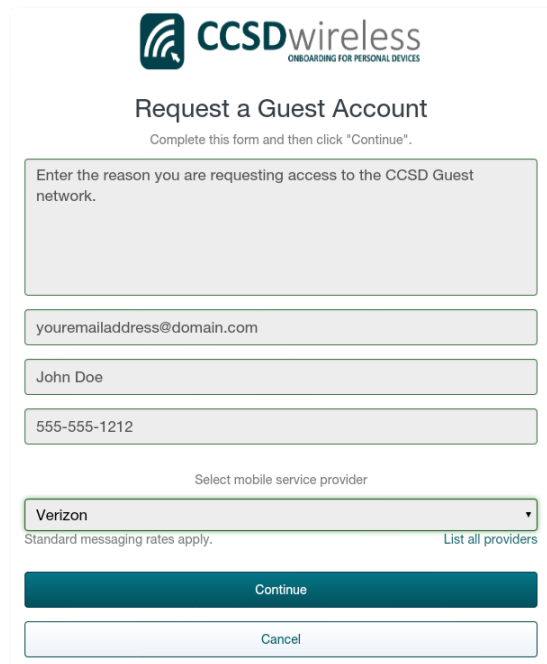

To set up network and Internet access, please choose your user type and login.

New Guest
Request a guest account for Internet-only network access.

Returning Guest
Login to your existing guest account or request your password to be resent.

9. Complete all of the requested information consisting of:
- The reason for requesting access
 - Your valid email address
 - Your full name
 - Your mobile phone number
 - Your mobile service provider

After completing the form, select **Continue**.

Select mobile service provider

Verizon

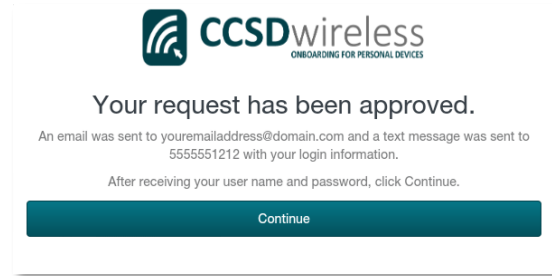

Standard messaging rates apply. [List all providers](#)

Continue

Cancel

10. Verify that the correct email address and phone number has been submitted, then select **Continue**.

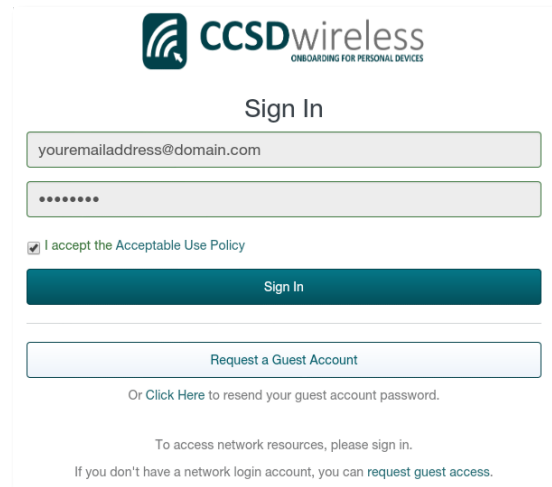

Note: You will receive an email and text message that contains your username and password.

11. Enter the email address and password that was sent to you.

Check the "Acceptable Use Policy" after reading the terms.

Select **Sign In**.

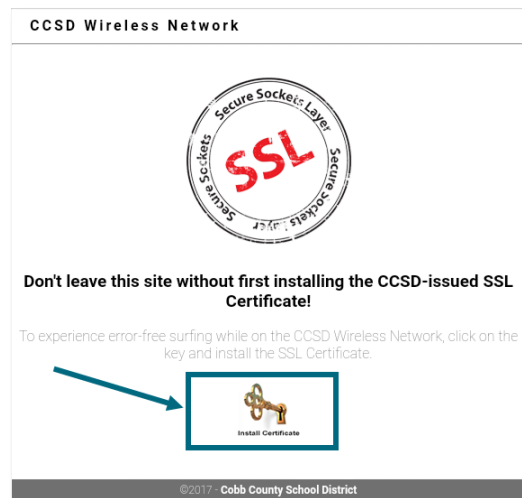

12. You will be re-directed to the *SSL Certificate Page*.

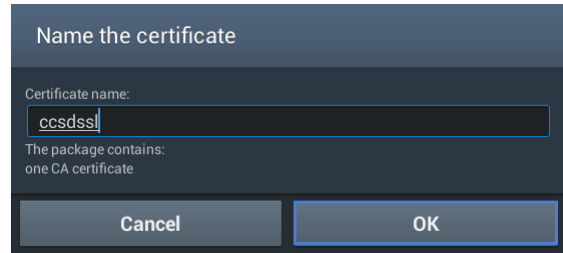

Click on the **gold key**.

Do not leave this site without first installing the CCSD-issued SSL Certificate!

It will be required to experience error-free surfing at secured HTTPS sites while on the CCSD Wireless Network.

13. When prompted for a Certificate Name, enter ccsdssl, then click **OK**.

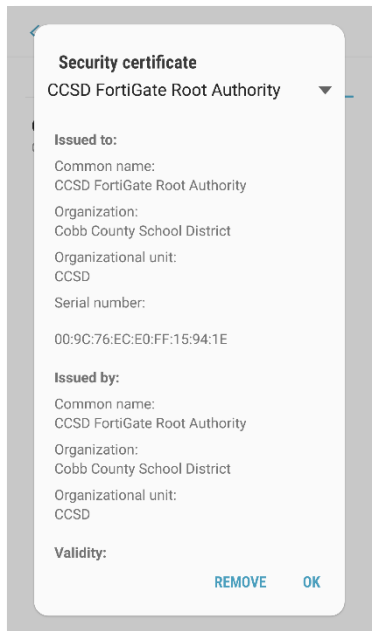

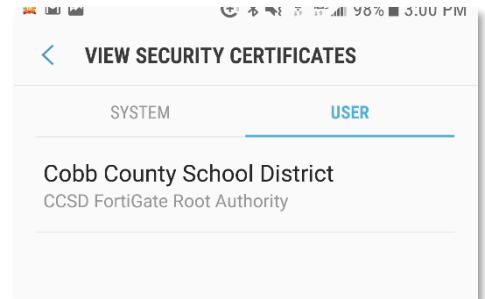

14. Navigate to a secure HTTPS site like www.yahoo.com, www.google.com or www.bing.com. Verify that the page displays properly.

If the page displays properly, your installation is complete. If you are still having issues, you may need to manually trust the certificate.

15. Go to your **Settings**. (Depending on your OS version, the following location names may vary.)
 Navigate to **Lock screen and security**, scroll down and select **Other security settings**.
 Scroll down to select **View security certificates**.

- a. Select the **User** tab.
- b. Select Cobb County School District (CCSD FortiGate Root Authority).

- c. Select **Trust** to continue to use CCSDWireless, then **OK**. If **Trust** is not an option, then you already trust the certificate.

16. Please contact your local Media Specialist if you encounter any issues connecting to the CCSDWireless network
